

SYARIKAT CERAMECH

The Syarikat Ceramech High Speed Mixer

Syarikat Ceramech High Speed Mixer consist of 1 hp 1500 RPM single phase motor with a straight coupling of chrome plated bronze with a 25mm stainless steel shaft, and a 4 bladed Stainless Steel propeller. The arms is extensible, so that the unit can be use over a range of bucket size. The maximum submerged depth of the unit is 450mm.

Except for the motor and coupling all parts are stainless Steel.

A insulated switch on the power casing acts as a safety cut off, and also allows you to cut off the motor at the end of the cycle.

Unplug the unit from the power supply, before you clean the Mixer.
